Safety of Proton Pump Inhibitors (PPIs)

GALLIOTT
CAPITAL ADVISORS

What are Proton pump inhibitors (PPIs)?

PPIs, such as omeprazole, Prilosec, and Nexium are medications that are effective in blocking gastric acid secretion.

GALLIOTT
CAPITAL ADVISORS

What are Proton pump inhibitors (PPIs) used for?

PPIs are used for the treatment of peptic ulcer disease (PUD), gastroesophageal reflux disease (GERD), and much rarer conditions such as Zollinger-Ellison syndrome (ZES).

GALLIOTT
CAPITAL ADVISORS

Are there drug interactions with Proton pump inhibitors (PPIs)?

Clinically important drug interactions with PPIs are rare and should be addressed with your doctor and pharmacist.
